COVID-19 SAFETY PROTOCOL

Work from home where possible especially if you are a high risk individual and definitely if you are experiencing symptoms.

Practice physical distancing of at least 2 meters, limit cohorts to 5 people and avoid intermixing between cohorts.

Wear a cloth mask for personal protection or other PPE if the lab requires.

Follow hygiene guidelines by washing hands frequently and disinfecting high touch surfaces.

Up-to-date routine immunizations like influenza are encouraged as well as passive and active screening.

Self-monitor and report any symptoms.

Practice physical distancing

Wash hands frequently

Ensure immunizations are up-to-date

COUGHING AND SNEEZING ETIQUETTE

Avoid the use of open hands or closed fist to cover your cough.

It spreads germs through the air and makes it easy to transfer the germs to other surfaces through touching.

Cough or sneeze into the fold of your arm, trapping germs within the easily washable fabric of your clothes.
